

[illegible]

Honor System Is Not Solution For Student Cheating At UK

Why should the fact that UK students consider cheating a game be a basis for an honor system on the UK campus? An honor system has to be enforced by the students and we certainly have seen no evidence that the students would enforce such a system.

A proposal to install an honor system at UK was made in SGA last week. A SGA member cited that many students failed tests because other students obtained the tests beforehand and therefore made higher grades. We agree wholeheartedly that the above situation isn't a very agreeable one for those who make the lower grades. But we do not agree that a honor system is the solution.

It does not sound plausible for a student who goes to such elaborate means to acquire a test to suddenly turn saint at the mention of an honor system and cast aside his erring ways. Another point to consider: if a student did have the test and other members of the class knew about it, under this system it would be their duty to turn their classmate in to the professor. An action of this kind would require quite a bit of courage on the students' part. Would they be willing to do it?

Under the present system, UK students are supposed to turn in fellow classmates whom they know are cheating. But how often does this happen?—rarely if ever. And when and if it does, the student who takes this action receives quite a bit of criticism. He becomes a stool-pigeon. Yes, the other students do lose out. It isn't fair, but who has the courage to do anything about it?

In many classes, there is what's called a cheating row, near the middle or the back of the room. The students in that row can sometimes freely pass the answers back and forth. Six or seven people combining answers on one test can come up with some pretty high grades.

Then there's the student who habitually pokes the person next to him during test time or adroitly manages to sit in just the right way to see the paper

in front of him. The other students know about it but what can they do? Take this same situation, remove the professor entirely from the classroom and those habitual cheats will have it made. There's no need to speak of ethics. Those who cheat while the professor is present will do doubly so while he is absent.

We cannot, however, completely exonerate some professors on campus. There are many who take thorough precautions against the thieves of the classes. But there are a few who seemingly overlook the most brazen attempts to cheat. As long as we are under the present system at the University, the professors are supposed to closely supervise and monitor all tests. If cheating occurs in the classrooms of some lackadaisical professors, then they, too, must share some of the responsibility for it.

Student access to tests before they are given is another point which must be considered and cleared up. The campus police have been able to reduce the number of tests which are stolen from some of the older buildings. There is, however, still a leak. Tests in some departments can still be obtained for five or 10 dollars. Departments who are aware of the problem are doing their best to stop the leak. If this problem is to be solved, the individual professor must know at all times just where his tests are and who has access to them.

Honor is a wonderful word—the symbol of integrity. It is said that if the honor system could be installed here, it would give the students a sense of responsibility, more school spirit, and a feeling of unity. The point is, before students can be given the right to govern themselves in the classroom, they must earn that right.

When the students realize that when they cheat, they are only cheating themselves. When they are willing to uphold the ideals of honesty in the classroom, then, and only then will they be ready for an honor system. Until conditions change, UK should not have an honor system.

Oh Yes, We College Students Are Really Cream Of The Crop

Editor's note: In a recent issue of TIME, it was stated that the Kentucky state legislature pigeon-holed a bill that would have made a 12th-grade education, or higher, a necessary qualification for any citizen seeking election to a school board. One argument against the bill: 87 per cent of all Kentuckians over 25, and 8 per cent of their legislators, would be ineligible to serve. After reading this item some college students might consider themselves fairly superior, but before they get too cocky, perhaps they had better read the following editorial.)

The eighth-grade education level of this country puts us college students in a class by ourselves. We're the people commencement speakers mean when they talk about the "hope of the new genera-

tion" and the "builders of tomorrow."

The government seems to think so, too. College men with good enough grades are allowed to finish school before going into the service.

Business men ask for us, educators need us, professional men demand us. We're the cream of the crop.

We want an education, but we'd prefer it a spoonful at a time.

But we're the cream of the crop.

We complacently take notes for fifty minutes, seldom questioning anything professors say.

But we're the cream of the crop.

Logical thinking is the most difficult thing we have to do, and we industriously avoid it.

But we're the cream of the crop.

We have more political opinions than the average person, but most of them are based on undigested reasons.

But we're the cream of the crop.

Generally speaking, we've grown up beyond the atheistic stage but haven't reached beyond a vague indifference or an unsure noncommittal.

But we're the cream of the crop.

We average one completely original and significant idea a year.

But we're the cream of the crop.

Our favorite literature is science fiction, Mickey Spillane, and L'il Abner.

But we're the cream of the crop.

We learn the Greek alphabet, what color to wear with purple, and the fundamentals of our major. We study when we have to, party when we can, and sleep in between. Ah, we're the cream of the crop!

K.F.

Al Capp Shows Biting Sarcasm In Ridicule Of Show Business

By LESLIE MORRIS

In this hurried age—where the almost inaudible ticking of the time-piece holds "illimitable dominion over all"—man has turned to his television set, the movie screen, and the comic page, for his only breath of air (however stale) during a busy day. The eye-ball has become the main avenue through which matter-other-than-business filters into the otherwise inaccessible portions of his brain.

He no longer has time to poke around in dusty library shelves, or read the foreboding editorial page or news-magazines-minus-pictures. Man has become modernized; the spongy corpuses beneath his skull remit hot bubbles that float and pop harmlessly in the vast upper caverns of his brain—but occasionally he digests something, gulps it, and burps a bubble that pops a green seed, and it ricochets and bounces and makes our modern machine take another look at what caused this rare disturbance in Potter's Field.

And there comes upon the scene—once in a blue moon a wise, bitter product of this mechanical civilization, who knows how to reach into the dark pit over the eyeholes of this 20th-century man, and—my—how the walls come tumblin' down. And so, we have the successor of Swift, Voltaire, and the colony of other satirists of a by-gone, intellectual age, in the person of a moon-faced genius named Al Capp, who uses his pen over a drawing board instead of a desk.

Now Mr. Capp, of the Boston Capps, is not only the creator of L'il Abner, but a mysterious personage who produces plays, talks on TV, and heads a massive commercial empire built upon the fame of his Kentucky hillbillies; and around his head there circulate all sorts of diverse and feeble rumors.

His career has been fabulous. He's created so many popular characters (or caricatures, if you will) that he can hardly be compared with his less-imaginative contemporaries. And beneath the crazy goings-on of his harmless Dogpatchers there lies enough biting sarcasm and ridicule to unstarch every collar in the country. Now in the past Mr. Capp's attacks have been of the subtle, submarine variety—but still open enough to draw fire from the U. S. Congress, among others, whose collective pride he kicked—where he intimated it was—in the seat of its pants.

But lately, Mr. Capp seems to have changed his battle strategy, and has emerged to fire his pom-

poms from the bloody decks. The public is now being treated to a private war against show-biz and show-biz morals in a wide-open, over-handed manner that has heads bobbing from Television City to Las Vegas. The frank and undisguised sniping of Mr. Capp is so obvious, and so plainly libelous—perhaps—that we hope you're not missing the mild fireworks—all in fun, of course.

So recently we have in the Abner panel, a voluptuous blonde, with a name like "Zsa Zsa," and a black patch over one eye, luring our dumb hero to squirt a "water pistol" at an odd couple who have just recited the marriage vows. The fact that the bride is a dissipated-looking, richest-woman-in-the-world type who looks like Barbara Hutton, and the groom a copy of the Dominican Republic's heir luminary, Rubi Rubirosa, is purely coincidental it says here. But I'd still wager that the nervous Miss Hutton's newspaper had a slice cut out of the back section for a couple of days. And so the triangle-affair of this January was put right where it belonged by the redoubtable Mr. Capp—on the comic page.

At present, he's waging a valiant, double-barreled war on TV refuse. In the daily strip we have L'il Abner appearing on a show called "What's My Whine." Forsaking subtlety, a TV exec tells the young Mr. Yokum that his sponsors feature said-stories-from-the-street because its approximately thirty grand cheaper than hiring professional talent. A little ole lady is "hooked" off-stage before L'il Abner's appearance, while a panchely me giggles. "They're used to the finest in tragedy." Well, this is kinda brutal, but Colgate's horror show, "Strike It Rich," deserves no better.

Sunday's companion-in-calamity is raking that other television mess, "This Is Your Life," over the fiery coals. In this piece, Capp returns to his pet-peeve-program with a bit of competition called, "This Is Your Wife," and the doings here should get hilarious before the all-pervasive Al Capp exhausts his deadly wrath. This truly is a remarkable age—and this brilliant cartoonist, like Mr. Dooley at the turn of the century—is the most able and widely read satirist of our time.

Last December in this column we picked William Holden, in "Stalag 17," as the best actor of the year, and new-comer Audrey Hepburn, as the best actress, for her performance in "Roman Holiday." This week, Look Magazine made its annual awards, and we're glad to see that the bi-weekly mag finally got around to agreeing with us on our Top Two.

Our Readers Speak On Honor System, Discipline

Secret vs Open

Dear Editor:

The opposition to a proposal for making the judiciary committee meetings of the SGA open to the public makes me sick. I fail to see how the Dean of Men and various members of the SGA could oppose such a worthwhile step. Disciplinary cases brought before the judiciary committee should be open to all, not kept under a cloak of secrecy. Any arguments to the contrary can hardly hold water.

Such an "open door" policy would not be injurious to the student being tried. In the first place, the proposal stated that the interested parties could ask for secrecy if they desired it. In the second place, anyone who has done something serious enough to warrant action by the judiciary committee should receive the attendant publicity. Further more, allowing or maybe even encouraging student participation and interest in the meetings could do much to aid in student understanding of how the SGA functions. This is something that is seriously lacking at present.

The opponents of this measure place their lives in an unfavorable light. Their opposition looks like they are using smokescreen tactics, rather than valid arguments to gain their own ends at the ex-

pense of justice and fair play. Any secret meeting held by a government, whether student or national, is under suspicion in a democratic society. This is especially true when such a meeting is for the purpose of trying or "disciplining" somebody. Many students feel that the judiciary committee uses "kangaroo court" tactics or that it is under the thumb of the powers-that-be of the school administration. The insistence upon secret meetings gives some justification to such ideas. Making the judiciary meetings public would give all a chance to see whether this is true or not.

The University may be "one big family," but I personally would like to see it "one big happy family." Let's open the door, secrecy has no place in a student government.

Sincerely,
FEG

Grades Misleading

Dear Editor:

Concerning the proposal for an honor system at UK made last week before the Student Government Association: Do grades really serve their intended purpose and do they honestly portray a student's ability in a given course?

I do not think so. A grading system brings about

cheating in various forms and degrees and does not accurately record a student's real knowledge. How many times have you heard of a student receiving a high grade in a course by such means as outright dishonesty, "apple polishing," or by having access to a good file? Probably everyone on campus has seen this happen several times during their stay here at the University or in high school.

It happens every semester. Elaborate methods of carrying answers into a test are being used daily in any school. Often students hand in themes written by another person or even taken verbatim from old files at the possible expense of a grade for other students if the instructor grades on the curve.

There would always be a small percentage of the students which would not abide wholly to an honor system and quiet a number of honest students would crib once or twice if they thought they could do it undetected. That's why I think an honor system here, or anywhere else, is a farce. In my book there is no degree of dishonesty. A person who has a copy of a test in advance and a person who receives help on just a single true-false question are in the same boat—they've both violated the honor system.

Yours truly,
Felix Feltner, Jr.

The Toolbox

Ah, Springtime! Ah, Sweet Love! Ah - Phooie!

By RONNIE BUTLER

(Love is, bluntly, a mild insanity resulting from an incurable human condition of homogeneity. It is, naturally, almost incurable once having been contracted. As an anonymous German poet once said, "Ach! Ich glaube das ich liebe mein phooie." And, as Pierre Les Noix wrote, "Alois (in pathos) l'ami de Pluto.")

This is a love story. It concerns two people, a man and a woman, thereby offering the only plot necessary for a love story. She loves him, he loves her, they both love each other. This gives them something in common. Just what "something in common" is no one is sure of, but the books say it is good.

Now, to the story.
He: "You are a woman!"
She: "And you are a man!"
He: "We're off to a dashing good start."

She: "My, you are intelligent Women like intelligent men!"
He: "Ah, you have flattered me. Men like to be flattered. I believe I am as free with you."

She: "So right—to—the—point. That's a good quality. I, too, believe I am in love with you."

He: "Splendid! But, first, we must determine if we are compatible."

She: "What?"

He: "I say, I mean that we must see if we are suited for each other."

She: "Oh, good."

He: "Please tell me about your family, your background."

She: "My parents raised me according to the best books on psychology. I was smart in school, got along well with my friends, and never suffered from anxiety, psychoses, or dyspepsia."

He: "Wonderful! Your background is commendable."

She: "Now, you must tell me about your family."

He: "I, too, was raised according to the most modern works on child psychology. At an early age, I showed signs of leadership. I tore up the Encyclopedia Britannica once and rewrote it because I didn't care for the two or three misspelled words I found."

She: "What more could a girl ask?"

He: "I suppose you know we should inquire as to each other's religion?"

She: "Definitely."

He: "As for me, I am an agnostic, with slight propensities toward pantheism, although I am more of a theist than a deist except on Washington's birthday and Fridays the 16th."

She: "Splendid. My family raised me in the faith you have. We'll have no trouble there."

He: "I really suppose we should see how many things we have in common."

She: "Yes, we want our love to be perfect."

He: "Literature is my pet. I am simply mad about it."

She: "I, too, read occasionally."

He: "Artistically, I have definite tastes. Prefer oil paintings to water colors and the impressionistic school to the hyper-super-quasi-realists."

She: "Pictures, I find, are pretty, without a doubt."

He: "Music is another favorite of mine. Tchaikovsky, Brahms, Mozart, Beethoven, Prokofiev, Mendelssohn, Spike Jones..."

She: "It does have soothing qualities."

He: "As for food, I am a connoisseur. I like red wine with red meat, white wine with white meat. I eat my imported cheeses with a separate fork and insist that the finest oils go into the preparation of my salad."

She: "I agree that one should enjoy one's food."

He: "You really should know about my faults, I suppose."

She: "Yes, and you should know of mine."

He: "I sometimes go months without shaving."

She: "I consider dandruff and halitosis an asset."

He: "I talk in my sleep."

She: "I walk in my sleep."

He: "I never change undershirts more than twice a week."

She: "There are many times when I let my lipstick get sloppy."

He: "Ah, pity, these are grave faults, but..."

She: "But every young couple should have some differences to make their love successful."

He: "Yes, Dr. Wiggam says so. We will manage, I suppose."

She: "It would seem that we are very much in love."

He: "I agree."

She: "Darling, I love you with all my heart."

He: "Dearest, you're the reason the world rotates on its axis."

She: "I love you, I love you, I love you."

He: "I love you, I love you, I love you."

She: "Are you proposing?"

He: "Yes. We shall work together, laugh together, share life's hardships together, just you and I, darling."

She: "Joy, rapture, bliss. Carry me to the altar!"

(Time passes rapidly, having an early appointment with eternity. They marry, raise children, go to the PTA on Tuesday nights, pay off the mortgage on their home and, one by one, slip into the grave. Ain't love grand?)

(Ah, spring! Ah, love! Ah, nuts!)

Israeli, Greek, Iraqi Envoys To Speak At Conference

A series of international relations conferences will be presented at the University of Kentucky by the Department of International Relations. The first of these, the "Middle East Conference," will be held on April 22-24. Dr. Joseph W. D. Skiles, head of the Department of International Relations, is the sponsor.

Representatives of the Embassy of Israel, the Royal Greek Embassy, and the Embassy of Iraq will deliver 20-minute papers on April 22. The subject of the Israeli paper is "The Middle East: Greece, a Middle Eastern Problem," and Iraq, "Persian in the Middle East."

General discussion on the subjects will follow the address. Dr. Skiles, director of the conference, and Dr. Herbert N. Dreier, acting head of the Department of Political Science, will be moderators of the session on international relations, which will be titled "Persian Mediterranean Problems."

Highway Meeting Held On Campus

The sixth annual Kentucky Highway Conference, sponsored by the UK College of Engineering, was held on campus Wednesday and Thursday. R. F. Sawyer, head of the Department of Civil Engineering, was the guest speaker.

The purpose of this conference is to bring together state, county and city engineers, officials, highway contractors and others interested in the design, construction and maintenance of roads and streets.

A luncheon was held in the Blue Room of the Student Union, and four separate sessions were conducted during the afternoon on county and rural highway, maintenance equipment, traffic and safety, design, construction and materials and structural division.

These four discussion sessions were continued Thursday morning with a general session concluding the conference that afternoon. The conference has been conducted annually since 1912. Last year 436 students registered for the conference held here on April 2-3. R. R. Dawson, president of the UK alumni association, was toastmaster for the program.

Test Tube Mysteries

"Always loved to probe the mysteries of the test tube," says Dr. Joseph W. D. Skiles, head of the Department of International Relations. "I have been a test tube enthusiast since I was a child." Dr. Skiles, who is also a member of the Kentucky Highway Conference, will be the guest speaker at the conference held on April 22-24.

LAMP AND CROSS INITIATES—New members of Lamp and Cross, senior men's honorary, are pictured above. They are, front row, left to right, James Boyle, Leslie Morris, Curtis Songster, Jimmy Moore, Gary Newton, and Dr. James W. Gladden. Second row, Henry Bennett, Leslie Barnett, Jack Nelson, Jim Fisher, Tom Herndon, Ken Harris, Charlie Palmer, Charles Severs, Glen Sandafur, Alan Steilberg, Wandell Norman and Ray Jones.

New Women's Honorary Approved By Faculty

Links, junior women's honorary organized by last year's members of Omicron and Alpha Lambda Delta, was approved by the Faculty Committee Monday, and by the Student Activities Committee the week before.

Sara B. Holmes, dean of women, has announced.

Applications for women who are second semester sophomores with a 2.0 overall standing and leadership qualities will be available in the dean of women's office until Wednesday.

A maximum of 20 women will be selected from the group which applied for membership in Links, and these girls will be presented at the annual Stars in the Night program in April.

Links, which will be a local honorary for the time being, was organized this fall in order that outstanding junior women would have recognition each year and to provide them with a means for association with other leaders in the group.

This group will conduct at least one campus-wide project each year. The two projects under consideration by the founders of Links are

sponsoring a workshop for leaders of all campus groups and or working with the Kentucky Society for Crippled Children, Inc.

Links will hold meetings once a month and dues will be \$2 a semester. Mrs. Lewis Harvard, head resident of Boyd Hall, will be the faculty advisor.

500 Expected At KHSPA Meet
Registration for the Kentucky High School Press Association meeting to be held on the campus March 26 is expected to reach 500. Dr. Niel Plummer, head of the School of Journalism, has announced.

Various exhibits will be on the day's agenda. The Kingsport Press from Kingsport, Tenn., will present a 70-foot review of the manufacture of year books made up of enamel drawings and pictures.

George F. Barbers, a representative for the Kingsport Press and former UK student, will present a discussion on the different phases of yearbook cover preparation.

Ralph Smith and Wayne Hadley, representatives of the Meyers Company of Topeka, Kansas, will conduct clinic sessions on yearbook manufacturing for the visiting students.

A special program in mimeographing will be presented by the Lang Company of Lexington, Ky., representatives for the A. B. Dick Company of North Carolina.

For the benefit of those students interested in advertising, Raymond C. Hornback of the Louisville Courier-Journal and Times Advertising Department will present various phases of advertising.

During the day's sessions, prizes will be presented to contest winning high school papers, contests will be held, and journalism seniors, members of the Henry Watterson Press Club, and Theta Sigma Phi will conduct a program of evaluations of the papers represented at the conference.

The program will be from 9 a.m. to 5 p.m. in the Journalism Building.

Coffee Chat To Hear Drs. Stein, Weismann
Interrelations between the art and music of the era of impressionism is the subject of the next Coffee Chat, to be held at 4 p.m. Wednesday in the Student Union.

Speakers will be Dr. Donald L. Weismann, head of the Art Department, and Dr. Edwin E. Stein, head of the Music Department.

Librarian Prints 'Microcard' Book

"Say, Mac, where you going with the microscope?"
"To the library. I have some reading to do."

That could easily be heard on campus since an announcement last week that a UK staff member has published a volume that must be read through a microscope or some other special optical instrument.

Publisher of the new book is Mrs. Ellen B. Stutsman, head cataloger in the Margaret I. King Library, who calls her creation the "microcard" book. According to Mrs. Stutsman, microcards are simply 35 millimeter contact prints of photographs of entire book pages.

Fifty pages, she explained, can be printed on a three by five-inch card and the average book will fit on three to six cards.

Title of the unique volume is "Development of Library Cataloging of Kentucky Official Documents." It is part of a series edited by Dr. Lawrence S. Thompson, director of the University Libraries, and published by the University of Rochester Press for the Association of College and Reference Libraries.

The particular microcard series began last fall and more than 20 volumes have been published since then—representing more books than the average university press issues in an entire year.

Dr. Thompson, however, assured book lovers that they needn't worry about microcards replacing conventional books. "Until a form of microtext is developed, which can be read anywhere and in any way the ordinary book can be read," he said, "the codex book will be with us. Until we develop a microcard or microfilm that can be read in a fishing skiff, on the subway, or with a couple of children crowding you in an over-stuffed chair, the conventional book is safe."

Dr. Thompson pointed out that the two main purposes of microtext is to save space in libraries and to make available important research materials in demand by relatively few specialists—a function not economical in a letterpress edition since too few copies would be sold.

13 New Students Make Top Scores
Dr. Lyle W. Croft, UK director of personnel, recently commended 13 students, who entered the University for the first time this semester, for their outstanding scores on placement tests given new students.

Dr. Croft, commenting on the high scoring students, said, "Such high achievement reflects credit not only on their parents but also on the high schools from which they were graduated."

The 13 students were placed in the "A" section on the general ability, English and mathematics tests. Under the UK testing system, only the persons with scores in the highest 25 per cent on each test are placed in the "A" sections.

Honored for their scores were Louis P. Baumgarten, Louisville; Clyde A. Cummings, Big Stone Gap, Va.; Clarissa Delano, Berea; James S. Duncan, Louisville; Betty Ann Glascock, Lebanon; Joseph Henderson, Lexington; Robert Van Meter Hill, Lexington; Nell T. Hooks Jr., Hopkinsville; Donna Gail Hopper, Lebanon; George Mills, Ashland; Robert Rodes, Lexington; Sidney R. Steinberg, Lexington and Gene A. Thomas, Owenton.

Board Receives \$55,000 In Gifts For University
Gifts totaling more than \$55,000 were accepted for the University by the executive committee of the Board of Trustees at a meeting of the group recently.

Henry Fisher Packing Company, Louisville, gave \$20,000 to the Animal Husbandry Department for furtherance of work with meat animals; Keeneland Foundation, \$21,000-\$15,000 to support diagnostic work in the livestock field and \$6,000 to supplement key salaries in the College of Agriculture and Home Economics.

Another gift to the Experiment Station was \$1,200 from Charles Filzer and Company, for a project called "The Influence of Newer Nutritional Factors on the Growth Promoting Effect of Calf Starters Containing Distillers Solubles."

From the Kentucky Artificial Breeding Association, \$3,000 was received to be used in connection with construction of a reproduction research laboratory at the Agricultural Experiment Station; and Opekast Foundation donated \$2,100 for a scholarship in agricultural economics for Alvin Egbert.

A gift of \$1,000, to be used in furnishing one of the new men's dormitories, was presented to the University by Herman Scholtz, Woodbourne Farm, Warrenton, Va.; United Cerebral Palsy of Kentucky, Inc., gave \$5,000 for use in a workshop to be conducted next summer by the College of Education; and an anonymous \$20 was accepted for the rare book fund, Library.

Through the Kentucky Research Foundation the University received \$81 from S. Headley Shouse as an addition to the Juliet Shouse Memorial Fund, and \$1,800 a year plus student fees from the International Nickel Company, Inc., for the International Nickel Company Fellowship, to stimulate post-graduate study in the fields of nickel and copper.

Church News

BSU Choir To Begin Tour Of Churches Tomorrow

The Baptist Student Union choir will leave tomorrow for a choir tour of Northern Kentucky. On Saturday night they will sing in Newport at a "Youth for Christ" rally. On Sunday morning they will provide a musical program at Immanuel Baptist Church, Covington. The trip will be climaxed by an appearance on WKRC-TV on the "Chapel of Dreams" program at 12:30 p.m. on Sunday. The BSU choir is under the direction of Jim Woodward, BSU president.

A Bible study will begin at 12:30 p.m. tomorrow at the BSU and will continue at this time every week throughout the semester. The study will be in the form of a discussion group and will be led by Andy Blane, student secretary.

Bowling Party To Be Held
Wesley Foundation will have a bowling party tonight at the Wildcat Bowling Lanes. Transportation will be from the center at 7 p.m.

Dr. Gladden To Speak
Dr. James Gladden, associate professor of sociology at UK, will present the first of a series of lectures on "Courtship and Marriage" at 6:45 p.m. on Sunday at the First Methodist Church, 214 W. High St.

Will Have Panel Discussion
The Westminster Fellowship will have a panel discussion by three

Teacher Demand Exceeds Supply
More than 4,000 teaching positions were open to UK education graduates in the year ending Feb. 1. Mrs. D. C. Kemper, secretary of the University Placement Service, said last week.

During that time, the College of Education graduated only 400 prospective teachers, Mrs. Kemper said. Superintendents, who once were content to write letters to the University, now come from school systems all over the country to interview students for teaching jobs, she said.

Mrs. Kemper also said that teacher certification standards in Kentucky are now as high as those of any other state.

Placement service files show that UK graduates who started teaching in the fall of 1950 received an average salary of \$2750 for a nine and a half or 10 month term, Mrs. Kemper said.

Phi Sigma Iota To Hold Meeting
Phi Sigma Iota, professional society in the Romance Language Department, will meet at the home of Dr. Alberta Server, professor of Spanish, in Arcadia Park Thursday evening.

The theme of the meeting will be Mexico, and a Mexican dinner will be served. After dinner a business meeting will be held, followed by a social hour.

Germanic Student Gets UT Grant
William Price, graduate student in Germanic literature, has received an assistantship at the University of Tennessee in the Modern Foreign Language Department.

He will begin his duties at Tennessee next fall, teaching one three-hour course in advanced Germanic literature and working on his master's degree.

The assistantship is the only one given in the Department of Germanic Languages and Literature.

Mr. Price graduated last January with an A.B. degree in Modern Foreign Languages.

Phi Sigma Iota To Hold Meeting
Phi Sigma Iota, professional society in the Romance Language Department, will meet at the home of Dr. Alberta Server, professor of Spanish, in Arcadia Park Thursday evening.

The theme of the meeting will be Mexico, and a Mexican dinner will be served. After dinner a business meeting will be held, followed by a social hour.

BSU Choir To Begin Tour Of Churches Tomorrow

The Baptist Student Union choir will leave tomorrow for a choir tour of Northern Kentucky. On Saturday night they will sing in Newport at a "Youth for Christ" rally. On Sunday morning they will provide a musical program at Immanuel Baptist Church, Covington. The trip will be climaxed by an appearance on WKRC-TV on the "Chapel of Dreams" program at 12:30 p.m. on Sunday. The BSU choir is under the direction of Jim Woodward, BSU president.

A Bible study will begin at 12:30 p.m. tomorrow at the BSU and will continue at this time every week throughout the semester. The study will be in the form of a discussion group and will be led by Andy Blane, student secretary.

Bowling Party To Be Held
Wesley Foundation will have a bowling party tonight at the Wildcat Bowling Lanes. Transportation will be from the center at 7 p.m.

Dr. Gladden To Speak
Dr. James Gladden, associate professor of sociology at UK, will present the first of a series of lectures on "Courtship and Marriage" at 6:45 p.m. on Sunday at the First Methodist Church, 214 W. High St.

Will Have Panel Discussion
The Westminster Fellowship will have a panel discussion by three

Teacher Demand Exceeds Supply
More than 4,000 teaching positions were open to UK education graduates in the year ending Feb. 1. Mrs. D. C. Kemper, secretary of the University Placement Service, said last week.

During that time, the College of Education graduated only 400 prospective teachers, Mrs. Kemper said. Superintendents, who once were content to write letters to the University, now come from school systems all over the country to interview students for teaching jobs, she said.

Mrs. Kemper also said that teacher certification standards in Kentucky are now as high as those of any other state.

Placement service files show that UK graduates who started teaching in the fall of 1950 received an average salary of \$2750 for a nine and a half or 10 month term, Mrs. Kemper said.

Wearin' Of Green To Herald St. Patrick Celebration Sunday

By ANN O'ROARK

Glory and be faith, share and 'tis Paddy's pig with a big green bow around his neck. And as how Sunday is none other than March 14th, the wearin' of the green by all true and loyal Irishmen will be in full force.

The AGR's will start the week-end off right with a party in honor of St. Patrick at 8 o'clock tonight. The Phi Deltas are planning to have a hayride to Renfro Valley this afternoon. They will leave about 5 p.m. The TKE's will have a house party at 8 o'clock this evening.

First River Party

The first river party of the season will be held by the PIKA's at Clifton tomorrow night. The party will begin at 8 p.m. with hopes that there won't be any more snow this year. The Deltas will also be at Clifton tomorrow night. They are having a werner roast that will begin at 6:30 p.m. Farm House and the ZBT's will have house parties tomorrow night at their houses. The doors will open at 8 p.m. at the Farm House and 7 p.m. at the ZBT house.

Congratulations to Ann Smith who was the queen of the Military Ball last weekend and to her attendants, Marcia McDaniel, Carolyn Sue West, Joy Sue Elvins, and Rose Gayle Waterfield.

The Phi Sig Founders' Day banquet will be held tomorrow night at 7 o'clock with a dance at the house afterward. The Lambda Chi's are also planning to have a supper and dance tomorrow. Their festivities

will begin at 4 p.m. at their new house.

The Lambda Chi's will have their house dedication program at 2 p.m. Sunday. The ATO's will hold their Founders' Day banquet Sunday afternoon.

The SAE's will conclude their round of serenades on Monday night. The Alpha Xi's will have a pop corn pop for the basketball team Tuesday night at their house.

The Kappa's will be hostesses for a dessert Tuesday at 6:30 p.m. in their house. The ZTA's will also entertain at a dessert Thursday at 6:30 p.m. The KD initiation banquet will be held at 6 p.m. this Thursday.

Sigma Chi Initiates

Sigma Chi initiated six men into the fraternity: James K. Crutcher Jr., George Logan Foster, Robert Gayle Rose, David Lloyd Walker III, William Hillery White, and Ralph David Allen.

Seven girls were initiated into the Delta Zeta sorority recently: Mary Burns, Beverly Sims, Virginia Snodgrass, Joyce Moore, Phyllis Sloan, Carol Walter, and Jane Frost.

The new officers of DZ are Helen Gumm, president; Mary Sue Bell, vice president; Martha May, recording secretary; Mary Ann Huffel, treasurer; Yvonne Eaton, house president; and Jackie Averill, rush chairman.

The alumni of Chi Omega held a meeting last Tuesday at the Chi O house to plan the reception to be given March 21 in honor of the Blanton Colliers by the alums and actives.

Married

Betty Woodford, XO, to Dan Duty, KA, U. S. Army.

Home Ec To Hold UK Career Week

A home economics Career Week will be held on campus March 31 through April 3. Karen Kercheval, president of the Home Economics Club, has announced.

Exhibits on careers in home economics, job interviews, and lectures on proper ways to dress for the occasion will be given, in addition to a coffee hour and a four-season style show on April 3, she said.

Kentucky School Board Association meeting, Student Union.

Thursday
Mortar Board "Smarty Party," Boyd Hall, 7 p.m.

Coffee Chat: "Imprisonism" in Art and Music, SUB, 4 p.m.
Tau Sigma Concert, Guignol, 8 p.m.

State High School Basketball Tourny, MC.
Archeology Lecture: Dr. W. H. Smith, MH, 7:30 p.m.

ZTA Dessert for fraternity, house, 6:30 p.m.
KD Initiation Banquet, 6 p.m.

Amsterdam Theatre
Cuts Rates On Climbers

(ACP)—Students will no longer receive reduced rates at Amsterdam's City Theatre.

The management says that, despite continued warnings, students would not content themselves with the seats assigned them and often climbed over the balustrades to sit in better ones.

'Guimpes,' All-Season Suit Are In Fashion Headline

By ANN O'ROARK

Soft and fluff, white and black, and "guimpes" headline the fashion world as the young woman's fancy turns lightly to new spring clothes.

The winter-summer-spring suit in a weightless fabric of a silk and worsted blend is the top seller for this time of the year, especially if it is a smart black.

Another never-miss is a butter-soft and white printed wool fluffed with rabbit hair to make it fit and feel like a cashmere sweater. More and more of the printed dresses are being seen in the store windows and on the campus co-eds.

Spring Favorites
One of this spring's favorites will be a token jacket and a wallpaper waist. Checks, especially black and white, have become the rage in jumpers guaranteed to put a dent in any girl's waist.

The gleam that will be seen on almost any night from now on probably won't be the North Star, but a white coat, always in season. And with the new ivory white Orlon coats, it's also very practical—just dump it into the washing machine and wash.

Now for the guimpe—it is a blouse of starch and charm and innocence with special interest at the shoulders and bosom. This interest is sometimes pleats, sometimes ruffles, and sometimes trim. It is just the thing to wear with the spring suits.

Spring Formals Appearing
Spring formals are appearing in all the light, soft shades of new green leaves and the first flowers of the season. The full, net, three-quarter length dress is the most popular style.

Another thing for every young lady to remember is that if she wants a man to put her on a pedestal, she'd better be sure her shoes are shined and pretty.

The accent now is on the vamp in the longer, more pointed toes and decor. The leather shoes can be found in all shades of sunbans, with greens running a close second.

The things that will really complete and accent the spring fashions and costumes are, as always, the little accessories that add so much to the charm, color, and attractiveness.

Pretty is as pretty does, but also pretty is as pretty dresses.

Lecture On Egypt To Feature Slides

Dr. William Stevenson Smith of the Boston Museum of Fine Arts will present a slide-illustrated lecture, "Recent Discoveries in Egypt," at 7:30 p.m. Thursday in Memorial Hall. The program, sponsored by the Kentucky Society of the Archaeological Institute of America, will be open to the public.

Dr. Smith will present an account of the work done mainly by Egyptian excavators since the war, as seen by Dr. Smith in 1951. At that time he was working in Egypt on a Fulbright Grant, and was serving as director of the American Research Center in Egypt.

Dr. Smith will describe some of the work he was doing on the Old Kingdom furniture of Queen Hetepheres and the Sogara reliefs of King Weserkaf, as well as Middle Kingdom paintings in Upper Egypt.

At present, Dr. Smith is associate curator in the Department of Egyptian Arts at the Boston Museum of Fine Arts. He also is a lecturer in fine arts at Harvard. Dr. Smith has written several books on Egyptian art and culture.

Outing Club Plans Historical Trip

The Student Union Outing Club has scheduled its Historical Trip for 8:30 a.m. to 9 p.m. on Sunday. Club members may sign up for the excursion from 2 to 4 p.m. today in Room 122 of the Student Union.

The trip will include Shakerstown, Harrodsburg, the Perryville Battle Field, Hodgenville, Bardstown, and Danville, Miss Bruce Cruise, social director of the Student Union, announced.

These pictures are from the collection of Tatiana Proskovnikoff, Carnegie Institution of Washington. This display concerns the reconstructed drawings of buildings of the early inhabitants of southern Mexico and Guatemala. The Mayan culture was one of the highest levels of civilization, the curator said.

Chemistry Dept. Schedules Program For High Schools

A chemistry guidance program for Kentucky high school seniors interested in science will be held at UK on March 29.

Included in the program, sponsored by the Department of Chemistry, are talks by specialists in different phases of chemistry and several demonstrations.

The dual purpose of the meeting is to give young chemists accurate notions of the work of professional chemists and to aid teachers in vocational guidance work.

A special session, evolving around the theme, "Content of High School Chemistry Courses," will be included in the day's program for the teachers who accompany their students to the campus.

Attendance at the program is by invitation. Teachers and students interested, however, can contact Robert M. Boyer, Department of Chemistry, who is serving as coordinator.

Women are fools to marry—Yes, but what else can a man marry?

Father stopped at the YMCA, mother stopped at the YWCA, and daughter stopped at nothing.

Dean Holmes Talks On Co-op Houses

The history of co-operative housing at the University of Kentucky was related to the residents of Dillard House by Mrs. Sarah B. Holmes, dean of women, at an informal coffee in her honor Tuesday night.

She told the girls how co-operative houses at the University were formed during the depression years in order that some girls might be financially able to attend the University.

She related the history of the planning and creating of the first co-operative house at the University, Shelby House. Many of the residents of this house paid their room and board bill with produce from home, she said.

Dean Holmes also told of the purchase of the University present co-operative house, Hamilton House, and of the University inheritance of Dillard House, a semi-co-operative house.

Writers' Clinic Set For March

On March 27 the Department of University Extension will sponsor a Creative Writing Conference for one general public on the University campus.

Guest speakers for the event will include Mrs. Janice Gile, Kentucky novelist and short story writer, and Mr. Joe Heller, of the Louisville Courier-Journal.

According to present plans, the University Departments of Radio Arts and the staff of the University Press will cooperate in the day-long program with lectures and demonstrations of radio script writing and the printing of books.

The Conference will be open to the general public and is sponsored by the University and the Department of Extension for the benefit of the practicing and the beginning writer.

The last conference held in 1932 was attended by nearly 75 amateur writers from central and northern Kentucky and included business and professional men and women, housewives, teachers, students, and journalists.

Sessions will be held in the Pine Arts Building and in the radio studio of the University.

If the entire staff of The Kentucky Kernel were laid end-to-end—a steam roller would come in handy.

UK's Million Dollar Baby Has A Million Headaches

By BILL BILLITER

Maintenance and Operations is a million dollar UK baby with a million and one headaches.

The big M & O building, located on Limestone opposite the Administration Building, is a modern Mecca for college trials, tribulations, and short circuits. M & O is a big branch of UK—necessarily so—with an annual expenditure of about a million dollars.

Consider the 250 employees of this mammoth branch of the University. There are carpenters, plumbers, electricians, tinsmiths, plasterers, gardeners, painters, janitors, maids, truck drivers, upholsterers, ditch-diggers, telephone switchboards, and secretaries. M & O has a cross section of almost every manual profession.

Clyde Lilly, chief clerk of M & O, states that the Service Building with its employees is so well-equipped that M & O has or can make anything that a fully equipped construction company handles.

"Few students," Mr. Lilly said, "realize what a big operation we are."

The Service Building, besides being the center of UK upkeep, is also like a giant horn of plenty to borrowing-minded University students. And "borrowing" is one of the many problems of M & O.

Although the maintenance department has everything from trac-

tors to printing presses, from repairs from student and faculty groups sometime in the year to the Lances Carnival and the May Day parade are the big attractions for big-minded borrowers.

For instance, Mr. Lilly told the case of a bright-eyed co-ed who wanted to have her hair styled for her sorority skills. "Her hair was as elaborate as a Ziegfeld Follies number," Mr. Lilly said. "I had to tell her we didn't have the light."

Students come to the Service Building for such items as trucks, sound systems, and tractors. M & O has these items, but is not permitted to loan them out.

There are only a few items that can't be loaned out, however. Students can purchase chairs, tables, risers, floor-scrapping machines, insecticides, rakes, electric lights and numerous other things from M & O's copious supply.

Some student "borrowing" above the privileges of borrowing M & O material is not so welcome. Items promptly are returned. Most abuses are minor, however, and the "return" problem is a minor one, according to Mr. Lilly.

Although the maintenance of UK's grounds and buildings is a full-time job in itself, M & O is a cardinal grantor of many students' whims. Employees will find yard rakes for fraternity men when they're bogged down with other University problems.

A JOB IS A JOB IS A JOB

WHEN YOU GET IT
OR
the case of the six-cent patsy

Once there was a Senior who was up against the grim prospect of Graduating. With Social Security 42 years away, he recognized the need of a job to tide him over.

So he hurried manfully through Classified Sections, under "Help Wanted", in search of the Right Niche. Spotted it, too. A honey. The right field, a Substantial Salary, fine location, generous and benefits Up To Here. The ad asked for Brief Historians from applicants.

He wrote immediately. Not cockily but convincingly. A masterpiece that took four nights and filled several pages with beautiful prose. It left no doubt that there was The Man for the Job. He slapped on a 6-cent stamp, dropped it into the box, and sat back waiting for The Call.

P.S.—he didn't get the job. His epistle wound up 1314 of the pile, and they never got down that far. Instead one of the first eight or nine letters that—all of whom had had history. Especially to flash the date by telegram and land On Top of the Heap.

Before you start looking for a job, be sure to latch onto your free copy of the Telegrammer. Western Union's ingenious pocket-size guide to telegraph use. Just write Room 1725, Western Union, 60 Hudson St., New York City. And remember, whatever the Project, write to use Telegrams to get the Jump on the Competition. Telegrams get in, get ahead, get the Reaction you want. Write, write, write in all kinds of ways... whether you're looking for a date, a Hotel Reservation, or Plans from Top. Just call Western Union.

IT'S ALL A MATTER OF TASTE

No guessing games with cigarettes. When Luckies are your brand—A cleaner, fresher, smoother smoke. A taste that's really grand!

Phil W. Elder
Oklahoma University

When you come right down to it, you smoke for one simple reason... enjoyment. And smoking enjoyment is all a matter of taste. Yes, taste is what counts in a cigarette. And Luckies taste better.

Two facts explain why Luckies taste better. First, L.S.M.F.T.—Lucky Strike means fine tobacco... light, mild, good-tasting tobacco. Second, Luckies are actually made better to taste better... always round, firm, fully packed to draw freely and smoke evenly.

So, for the enjoyment you get from better taste, and only from better taste, Be Happy—Go Lucky. Get a pack or a carton of better-tasting Luckies today.

I've often been class president—I'm called a real go-getter! My brand is always Lucky Strike—Why shucks, they just taste better!

Lillian Firestone
Barnard College

COLLEGE SMOKERS PREFER LUCKIES

A comprehensive survey—based on 31,000 student interviews and sponsored by college professors—shows that smokers in colleges from coast to coast prefer Luckies to all other brands. The No. 1 reason: Luckies' better taste!

I've always heard that taste will tell. And now I know it's true—The better taste of Lucky Strikes will sure convince you, too!

Donald A. Bell
Creighton University

LUCKIES TASTE BETTER

CLEANER, FRESHER, SMOOTHER!

Cleo Catches Couple Of 'Roamin' Romans

By BILL BILLITER

Once upon a time on the banks of the Nile there lived a luscious dish named Cleopatra. Cleo came from a long string of potentates, but somewhere along the line she had gotten lost in the shuffle. Her brother, who was absolutely nowhere, was now the boss-man of all Egypt, and the curvaceous Cleo was left out in the cold.

Needless to say, Cleo wasn't shot with playing second fiddle to her overplump brother, so she began working for a means to flush him and take the job herself. Now it just happened that a real frantic lighter named Caesar was sent from Rome to seize Egypt. Caesar was just the kid that Cleo needed.

Being a slick chick as far as love matters went, Cleo banged her noodle for a real hot way to send Caesar. At last she had a solid inspiration—she'd greet Caesar in secret. Cleo had her servants drag out a real gone Persian rug, and then had them roll her up in it. Then the rug was delivered to Caesar.

Imagine the surprised look that flashed across Caesar's pan when the rug was unrolled in his court. Out popped Cleo from the rug, wearing nothing but a few strategically placed daisies. "Hi va, Caesar," said Cleopatra. "I'm red-hot Cleo from down by the Nile. I've come to teach you to do the Cairo Cakewalk."

"Come here you great big doll," said Caesar. "You're the sharpest looking, to say the least. My world, baby, is at your sandals."

Caesar was so happy over Cleo's teaching him the Cairo Cakewalk, that he promised to make her Queen of Egypt. He started a war, got Cleo's brother bumped off and installed her Cleopatra as ruler. Cleo, being a real shrewd snit, went steady with Caesar until he suddenly kicked the bucket at the hands of political hateredmen.

With Caesar out of the picture, Cleo's position in Egypt was shaky. Intely, the assistant minister of state, said Cleo, "is another Roman stoop like Caesar. Maybe I can snare that Mark Anthony; I hear he's a schmoor, but he does have a lot of power." Thus it was that Anthony became the second candidate on Cleo's sucker list.

Cleo arranged to meet Anthony in her private barge, which was

Hammonds Speaks In Washington

Dr. Carsie Hammonds, UK professor of agricultural education, made three principal addresses last week at a conference of state supervisors and trainers of Negro teachers held at Howard University, Washington, D. C.

The conference, sponsored by the Department of Health, Education and Welfare of the U. S. Office of Education, is aimed at better agricultural education of Negro teachers. Dr. Hammonds spoke Monday on "The Challenge We Accept." His other talks, given Wednesday and Thursday, were entitled "Some Basic Concepts for Improving Our Teaching" and "Let Us Teach."

In addition to his addresses, Dr. Hammonds was chosen to summarize the work conference each day. W. N. Elam, Washington, D. C. program specialist in agricultural education, said Dr. Hammonds pointed out significant phases to be given special emphasis.

McFarlan, Jones Attend Meeting

Dr. Arthur C. McFarlan, head of the UK Geology Department, and Daniel Jones, state president, recently attended a meeting of the American Association of State Geologists at Johns Hopkins University, Baltimore, Md.

While there, they attended meetings with officials of the U. S. Geological Survey and the U. S. Bureau of Mines.

Variety Adds To Interest In Ag Class

By JUDY LESTER

If variety's the spice of life, the agriculture seniors and graduate students in Dr. Harold Clark's Agency Relationship class should find life interesting.

This phenomenal class has no text book, meets but once a week, and has a different lecturer at each class period.

Agency Relationship, according to Dean Frank J. Welch, dean of the College of Agriculture and Home Economics, is "designed to acquaint the students with various agencies, federal, state and private, that work with and for the farmers in Kentucky."

The class is taught by a system of discussion and questions and answers, lead by the heads of different agencies. Each lecturer speaks on the specific work of his agency and how it fits into the total agricultural picture.

The lecturers are divided into the general, educational, federal, and state agencies. Some of the speakers for this semester will be Burt St. Clair, president of the Kentucky Farm Bureau Federation, Louisville; L. P. Hilton, Division of Vocational Agriculture, Department of Agriculture, Frankfort; Earl Mayhew, State Director, Farmers Home Administration, Lexington; Joseph Taylor, Executive Director, Agriculture and Industrial Development Board of Kentucky, and many others.

Dr. Clark, professor of the class, lectures only at the first class of the semester. There will be a final examination. Dr. Clark said, and graduate students in the class will be required to write special papers.

Band Directors Convene At UK

Approximately 20 band directors from several southern states took part recently in a meeting of the Southern Division of the College Band Directors National Association held on the UK campus.

The meeting, which began last Thursday night, closed formally at 4 p.m. last Saturday with sessions in Memorial Coliseum. Chief session of the last day was an adjudication clinic for the visiting band directors.

During the clinic, three Kentucky high school bands—Maysville, Hazard and DuPont Manual—played one-hour concerts, after which the directors were given practice in judging them. Lawrence Intravala, director of bands at West Virginia University, was in charge of the clinic and directed discussion following the concerts.

In another general session of the meeting held Saturday afternoon, a brass ensemble from Western Kentucky State College appeared and reports from committees of the division were heard. A demonstration in reading of original manuscripts by the UK Concert Band, under the direction of Frank Prindl, ended the conference.

Ernest Lyons, of the University of Louisville, is chairman of the association's southern division. Vice chairman and chairman of the group's steering committee is Warren Lutz of the UK music faculty and director of the University's marching band.

On the welcoming committee for the meeting were Lutz, Prindl and William Worrell, also on the UK music faculty.

Orientation Guides To Be Selected

A meeting to select guides for Freshman Orientation Week in September will be held at 4 p.m. Wednesday in Room 103 of White Hall, the Personnel Department has announced.

UK GETS NEW HEADS—Plaster casts of three valuable prehistoric skulls have been added to the anthropology collection recently. Left to right are Rhodesian man, Cro-Magnon man from Asia Minor, Mt. Carmel man, and a large Ape-like man. Details are in the story below.

Three Skulls Of Primitive Man Added To Anthropology Collection

By BOB POWELL

Three skulls of primitive men have been added to the collection of the Anthropology Department, bringing the total to 25. Dr. Charles E. Snow, head of the department, has announced.

The plaster cast skulls are used in classes to aid in the studies of anthropology. These reproductions of primitive skulls are made throughout many parts of the world in museum and university laboratories.

The most recent skulls received by the department are Rhodesian man, Homo rhodesiensis, a contemporary man from France, Cro-Magnon, Mount Carmel man, and a large ape-like man, Pithecanthropus robustus.

Found In A Cave

The Homo rhodesiensis skull was found in a cave at Broken Hill, North Rhodesia, Africa in 1921. Its dated existence on earth is not too certain but it is said to be around the Pleistocene Age (a term taken from geological rock ages). The Rhodesian man has the physical features of the Negro, such as jaw projection and dominant brow ridges above the eyes.

Cro-Magnon, named after the village where it was discovered, was first found in France in 1868. Since then, the remains of 13 others have been unearthed in caves of the Red Rocks of the Cote d'Azur in the French Mediterranean coastal area.

He is known to have first appeared in the late Pleistocene Age, about 25,000 years ago. His features are similar to those of modern Europeans. He has a protruding chin.

On the welcoming committee for the meeting were Lutz, Prindl and William Worrell, also on the UK music faculty.

have, a long slender nose bone, and a very slight brow ridge.

The man called Mount Carmel is said to be a hybrid of Neanderthal, another early race of men, and modern man because his features are a combination of both, such as the prominent brow ridge of Neanderthal man and the cheek bones and brain case of modern man.

He stood over six feet, a greater height than that of the average modern man.

Dr. Snow reconstructed this skull by adding portions around the nasal area and restoring its original shape, which had been distorted.

The plaster cast skull of Mount Carmel man is referred to as Skull V because it is one of the 11 skulls found in Skhul Cave, in Asia Minor. Skull V has a gap between his jaw

teeth, a feature which is characteristic of modern apes.

Ape-Like Man

The large ape-like man, Pithecanthropus robustus, was uncovered in the Sangiran district, Java, in the Dutch East Indies in 1939. The man was from the late lower and early middle Pleistocene age, about 100,000 years ago. He resembles the skeleton of an early Chinese man, Sinanthropus pekinesis, and has characteristics of both man and ape.

Faculty's Booknapping Irks Library Director

By DAVE ALLEN

Dr. Lawrence S. Thompson, Director of Libraries at UK, is getting "a bit grey" because of a bad habit of certain faculty members.

The bad habit? Checking books out of the library and keeping them out.

In a bulletin dated January, 1954, Dr. Thompson writes that his blood pressure, figuratively speaking, rises once every two years or so when he has to "conduct a personal campaign to get back books from delinquent faculty members."

It seems that there is a rule which allows indefinite loan of most books, with the exception of those in the Browning Room, with the provision that they be checked in at least once a semester.

Dr. Thompson, at this point,

writes that "where where you can make me."

Verbatim, Dr. Thompson writes,

"Have So Much And No More. The University libraries have so much and no more from the University's general funds."

"The library staff, with the aid of the library committee, other faculty friends, the President, and the Vice President, tries to establish policies that will make for the most effective division of these funds between services and acquisition purposes."

All you have to do to increase book funds by a couple of thousand dollars is to reduce that amount of expenditure at the Circulation Desk by retaining books regularly."

Next, Dr. Thompson brings out a few more dig at the bad-book-habit of some of the faculty.

It seems that a few faculty members allow student to sign out books for them.

Teacher Is Responsible

He writes that, even though a teacher's name "appears with some other else's initials," the teacher is responsible for the book.

"All this a tough talk," he concludes, "and the last thing the library wants is to make the impression of being a tough place."

"But it's tough to get money for books nowadays, and you can help get more."

Come on, folks, let's get these books back!

Seaton Receives National Award

Dr. Ben Cash Seaton, head of the UK Department of Physical Education and variety track coach, was named recently as the recipient of a national award for outstanding service in the field of physical education.

Formal presentation of the award was made during the annual meeting of the Southern District of the American Association for Health, Physical Education and Recreation held last week in Biloxi, Miss. Dr. Seaton, one of three persons honored at the meeting, was selected mainly for his contributions in the field through written or safety.

Author or co-author of several books and articles on safety, Dr. Seaton holds both B.S. and M.S. degrees from the University of Illinois and a doctorate from New York University. He has been physical education head and track coach here since 1937.

Chicken-a-la-king is so named because it was first concocted by a chef in the main foyer of the King Library.

Slate Tourny Action Begins Next Wednesday

By GEORGE KOPER

It's tournament time again. The 16 regional winners will gather in Lexington next week to launch the final round in their battle for the State basketball championship.

The tourny will get under way on Wednesday, March 17, and conclude with the championship game on March 20.

For a preview of the big show, here's our pick of the top 16 who will fight it out for the high school crown.

1st Region—Paducah Tilghman. The first region is full of upstart teams who could run our selection right off the bat, but we'll stick with Ralph Wright's Tornadoes. Paducah has an unimpressive 15-8 record this year but McRight seems to have the ability to get his clubs up at tournament time. Tilghman was runner-up in last year's state tournament at Lafayette. The chief barrier to their return is Wingard (25-5), who this year is in Lafayette in their first meeting this season. Bardwell with a 30-4 record is the dark horse of the meet.

2nd Region—Morehead. Should repeat their regional victory of last season with their main opposition coming from South Christian and Lyon County.

3rd Region—Henderson Barrett to make their first visit to the tourny in many years. The Flashmen have their best team in many seasons. Barrett should experience little trouble until the finals when they will probably meet a strong Dixon outfit.

4th Region—Central City to coast in the fourth. The State's only unbeaten club (32-0) will face their strongest opposition in Morgan town, but should have little difficulty.

5th Region—The winner of this battle will probably come out of the first round struggle between Allen County and Auburn. We'll take Auburn to nose out Allen County in a close one and go on to down Burkesville for the regional crown.

6th Region—Caverna, with their All-Stater Kerry Shawell, to retain their 6th region halo. Adult County appears to be the only other team capable of dethroning Caverna.

7th Region—Flaget to turn the tables on Male and repeat last year's efforts. Male downed the Braves in the district finals last year only to have Flaget come back in the regional finals with an upset. Male turned in a 77-70 victory in the district finals this year, but we're taking Flaget to avenge this loss in the first round of the regional meet.

8th Region—Shelbyville and Oldham County look like the class of the Eighth with Shelbyville winning their second straight trip to the big show. Owen County ranks as the dark horse of the region.

9th Region—We gain a break in this region since the top contenders for regional honors met Tuesday night. Newport Public downed New-

port Catholic in the finals of the 36th District and repeated their win in the regional opener. Hebron upset winner over Covington Holmes Monday night, appear to be the only team standing in Newport's way. Newport downed Hebron 53-41 in their regular season opener.

10th Region—Bracken County to surprise in the 10th. Bracken County meets a stern test in their first game when they encounter Bourbon County. Georgetown Garth looks like the top team in the lower bracket but not up to repeating last year's win.

11th Region—Little doubt as to this one. Lafayette downed Henry Clay by only eight points in the finals of the district, but the Generals should have less trouble this time. Exill County looks like the Generals' opponents in the finals.

12th Region—Danville and Mount Vernon in the finals with Danville picking up the chips. Mount Vernon was stunned by Stanford in the district finals, but gets another chance at the same team in their regional opener. Russell County with a 29-7 record, looms as the dark horse.

13th Region—Clay County meets their stiffest hurdle in their first game when they meet Knox Central. We'll take Clay County to repeat last year's visit by trimming Barbourville in the finals.

14th Region—The winner of the semi-final battle between Hindman and Dilce Combs will carry the 14th's standard to Lexington. Powell County, a lower bracket team could upset the appieart but we'll string along with Dilce Combs.

15th Region—The big teams in this region are Pikeville and Inez. The teams drew into opposite brackets to set up a region final that's been long awaited. The contest pits two great high school players against each other—Pikeville's John Lee Butcher and the Indians' Billy Ray Cassidy. Pikeville has the advantage of playing on their home court but we pick Inez to upend the Panthers.

16th Region—The upper bracket struggle between Ashland and Clark County should determine the winner in the 16th. Ashland encounters a strong test right at the outset in Owensville. Our nod goes to the Tomcats to come through unscathed.

Recent ID Cards Can Be Obtained

Students who had their ID card pictures taken at the beginning of this semester may pick them up today in Room 5 of the Coliseum. Ken Kuhn, UK sports publicity director, announced this week.

They are available from 8:30 a.m. to noon and from 1:30 to 5 p.m. in the office of Dave Doyle, accountant, Kuhn said.

Staff Picks All-SEC Team

By DICK PURKINS

Scoring and balance—those are the two most evident attributes in the selection of the 1953-54 Kernel All-SEC aggregation.

The team, which averages slightly under 6-5, is headed by All-Americans Cliff Hagan and Frank Ramsey of Kentucky and Bob Pettit of LSU. This trio, along with Lou Tsioropoulos, also of Kentucky, were unanimous choices. They were joined on the first team by Robert (Cob) Jarvis, Mississippi's fine "jack of all trades," who narrowly won out over Carl Wadeth, of Tennessee, and Denver Brackeen, of Mississippi.

Pettit, the 6-9 LSU giant, is a shining example of balance. Besides making the conference in a game with a 32-point average, he is a top defensive performer, seldom, if ever, fouling out of a contest. For a big man, Bob displays a large variety of shots and is exceptionally fast and agile. Although most of

his points are produced on a sweeping hook shot and sure-handed "tips," he is also one of top foul shooters in the SEC.

Hagan, as all Kentuckians will agree, is probably the most graceful basketballer in the country today. He never appears to tire during the process of a game, due to the ease with which he handles himself. Cliff's most dangerous weapon is his devastating hook shot, which he can shoot with either hand. Hagan, like Pettit, also has a wide variety of shots—blind shots, "tips," jump shots, one handers, and recently, he even developed a looping, two-handed, over-head set shot from the corner, which makes guarding this human iceberg even more hopeless than it previously was. Although he is comparatively small for a present day pivot man (6-4), Cliff makes up for it in his tremendous leaping ability. He is currently averaging 24.3 points a game.

Ramsey, the so-called "blond bombshell," is a different type performer than either Pettit or Hagan. At 6-3 he is one of the most feared "drivers" in the conference, or nation. Although he is listed as a guard, Frank often performs at the forward slot, and frequently slides into the pivot, which he played in high school, to allow teammate Hagan to move around more. A fine outside shot and rebounder, he is averaging 19.2 points per tilt.

Rounding out the first five is Lou Tsioropoulos, the 6-5 Kentucky defensive ace. Although he always receives the job of guarding the op-

position's star performer, Lou has still managed to average 15.2 points a tilt. He also excels at rebounding.

Besides the first five, others receiving votes were Carl Wadeth, Tennessee's fine sophomore pivotman, Jerry Harper, also a soph center, from Alabama, still another sophomore center, Mississippi's Denver Brackeen, and Dan Finch of Vanderbilt.

Golf Team Holds Intra-squad Match

By BILL KNIGHT

The University of Kentucky linksters began their preparation for the coming golf season with an intra-squad match held last Friday at the Bowling Springs Country Club.

The golfers, coached by Johnny Owens, have four returnees from last year who will be teaming up with six aspirants that have turned out for this year's team. Veterans from last year are: Dan Boone, J. Y. Brown, Bill Holton, and John Hawkins.

Newcomers to the Cat squad include Jack Lancaster, Bob Logan, Mike Prunty, Louis Green, Gene Spraggins, and Bob Hardy. These men will have the task of filling in for Gay Brewer, who was UK's leading scorer last year.

Owens will be assisted this year by Marvin Lear. The first match for the Cat linksters will be held about the last week of March. The exact date of the match isn't known because the schedule hasn't been released as yet.

Ramsey Leads Cats To Win Over L.S.U.

Cats Refuse Tourny Bid

By BILL BURLISON

Kentucky gained the big one Tuesday night when they downed the L.S.U. Tigers, 63-56, before a sm-packed crowd at the Vanderbilt fieldhouse in Nashville.

The Wildcats then turned down the bid to the NCAA tourny at Iowa City after receiving official word that the "Big Three" would be ineligible for tournament play.

The Wildcats found themselves pushed for the first time in 25 games and were actually behind briefly in the third quarter. But led by Frank Ramsey, the Cats got a 55-51 lead with five minutes to go and proceeded to go into their deep freeze. They were aided toward this end by some dazzling dribbling on the part of Gayle Rose.

Star Cagers Ruled Ineligible
The celebration of some of the Kentuckians was dimmed somewhat after the ball game when it was announced that the "Big Three," Frank Ramsey, Cliff Hagan, and Lou Tsioropoulos, were ineligible for the NCAA tournament. The school added in the announcement:

"The Athletic Board and Athletic officials at the University of Kentucky doubt that in the absence of the three boys, its team would be the strongest in the Southeastern Conference. Accordingly, the Athletic Board has unanimously voted that the University of Kentucky withdraw from the N.C.A.A. tournament and request the conference to designate some other team to represent this district."

The three boys are ineligible under the NCAA rules because they are postgraduates, but they are eligible under the SEC to participate in conference play.

Kentucky Coach Adolph Rupp suffered a mild heart attack in the locker room after the game. He was forced to rest. This may bring the end to the fabulous coach who has just piloted the Cats to the longest undefeated one-season winning streak in basketball history. It would be a fitting place to retire although he wanted the NCAA crown before leaving the scene.

The game itself was just one tangle after another of two great defensive units. LSU was unable to stop Frank Ramsey and that was the difference. Cliff Hagan and Bob Pettit looked in a scoring duel that broke even with 17 points apiece.

Ramsey Carries Scoring Load
Ramsey drove in, shot from out, and hooked in 30 points. Both teams cut down the scoring effectiveness of the opposing centers by sagging in and not letting them get away many shots from out. Pettit in scoring 17 was far below his season's average of 32, but he was great under the boards. He got rebound after rebound and ended up the night by garnering a total of 21.

The Cats got more rebounds despite this effort. The Big Blue shot 67 times and connected on 24

of these shots for a percentage of 36.8. The Tigers pushed 31 of their 53 shots through the hoop for an average of 39.6 per cent.

LSU came uncomfortably close to taking an upset by employing a steady, deliberate, wave-attack, moving the ball around well, although making it almost impossible to feed the ball to Pettit.

LSU Shakes Early Cat Lead
The Cats had a 25-14 lead with six minutes to go in the first half when Bob Clark shot 12 for the night, and Don Belcher, who scored nine, shed the lead to 30-28 and left the door at the intermission trailing 32-28.

With seven minutes to go in the third quarter, Clark hit from the line and Kentucky was tied 36-36. Sophomore Don Sebastian then looped a long 30-footer and Pettit tipped one in and the disorganized Kentuckians found themselves behind in the third quarter for the first time this year.

The Wildcats then proceeded to go to work on that 40-36 lead. Three quick baskets followed while LSU was only collecting two points and the score was tied Kentucky then went ahead to stay when Hagan stole the ball and dribbled the length of the court to lay one in and put the Cats ahead.

Shaken Cats Rally and Pull Away

This appeared to build back the confidence of the badly-shaken Cats and they seemed to feel they had the game under control for the rest of the wax.

The teams traded buckets until Kentucky held a 53-51 lead with five minutes left. Hagan hooked in a shot and with the four point lead the freeze was then on. Ramsey saw an opening with four minutes left and drove in to score and make it 57-51.

Then Rose began to put on his act. Practically, Tigers went after the ball whenever they closed in on him. Rose faked and dribbled around and away.

Willie Rouse, who replaced Billy Evans after the latter had fouled

out with 7:45 left in the game, helped blow out the Tigers.

Kentucky Wins 15th SEC Crown
In this way ended the Big Blue of Kentucky won their 15th Southeastern Championship of the Southeast. They have won in the 21 years that the league had been in existence.

Immediately after the statement of I.K. deHaven, the tournament referee, SEC Commissioner, offered the berth in the tournament to LSU. Coach Harry Rabenhorst polled the members of the team and they decided to accept the invitation. And so closes another page that the Baron Adolph Rupp has written in the well filled annals of the University of Kentucky's athletic history.

Frosh Cagers

By BILL SURFACE

PAUL CORUM GUARD MIDWAY, KY.

Smallest member of the Paul Corum team, Corum more than made up for the with height and speed. The 5'10" guard, born from nearby Midway, was named high school basketball star in Morgan County. His speed enabled him to score 40 Mid-South points for the Kentucky team, giving him a eight-point average. He has a good shot and is rated by many observers as a good defensive man. A Pre-Mid major Corum also is an excellent baseball performer and is expected to give considerable aid to the Paul Corum cat baseball squad this season.

MEET YOURSELF—10 YEARS FROM NOW

Ever wonder what you'll be like when the class of '54 holds its 10th reunion? If you started to work for one of the Bell System companies after graduation, here's a pretty good idea.

INTERESTING, RESPONSIBLE WORK: Perhaps a Commercial Manager, the company's representative and spokesman to as many as fifty thousand customers. Or a Transmission Engineer, helping to provide the telephone needs of an entire state. Or a Supervisor in the Training Department, responsible for the speed and quality of local and long distance service in several cities and for the personnel relations of a large number of employees.

WE MAKE SURE THERE ARE PLACES TO GO: The number of college men hired is related to the number of administrative and technical positions expected to be available in the next 10 or 15 years. It's our policy to fill these positions from within our organization.

ARTS, SCIENCE, BUSINESS ADMINISTRATION AND ENGINEERING GRADUATES are given special consideration. The specific degree is not as important as the total effect of your college training.

NO MATTER WHAT YOUR MILITARY STATUS, contact your Placement Officer soon for details on the opportunities for employment with the Bell System.

Catfish Third In SEC; Bollinger Pulls Upset

By QUENTIN D. ALLEN

Unknown, but undefeated Paul Bollinger of UK got hot in near freezing weather to insect two Southeastern Conference Champions in pacing Kentucky swimmers to third place in the SEC Conference meet held at Gainesville, Fla. from Thursday to Saturday.

Favored Florida piled up a record-breaking total of 147 points to win a meet characterized by shattered records. UK's Paul Bollinger and Georgia's Reid Patterson were the stars of the meet as they broke existing records in their specialties. Bollinger first put the hex on former SEC champion Marshall Floyd of Georgia, who lost to Bollinger's record setting time of 2:15.2 minutes as compared with his previous record of 2:16 in the 200-yard freestyle contest last year.

Bollinger equaled his brilliant performance in the 220 next day in unseating Florida's Luis Child, last year's 440-yard freestyle champion. Child followed Bollinger to the finish line as Bollinger splashed to the win in 5:02.3. Other Cat swimmers, seemingly inspired by the feats of Bollinger, fought fiercely in winning many point gaining positions.

Roger Messick, for the second straight year, was beat only by Georgia's great freestyle champ, Reid Patterson, who broke his own mark in the 50-yard freestyle. Patterson bettered his own record of 22.6 seconds in the 50-yard freestyle, equalling his afternoon trial mark of 22.4 seconds. Patterson, a native of Kentucky, set his second record of the meet in the 100-yard freestyle in lowering his own mark of 50.4 seconds to 50.2 seconds.

Jack McDonald put two other swimmers to task, as he finished third in a hotly contested 200-yard backstroke event which Florida's George Duganne won in edging out Bob Terry of Georgia and McDonald. Terry finished only a foot behind Duganne and McDonald, in a final surge that was rapidly closing the gap, but the finish line inches behind Terry.

Florida took a commanding lead from the very first as Teddy Robinson rallied to win a thrilling duel from Georgia's Hal Stolz in overtaking Stolz ten yards from the finish marker. Robinson's time of 2:24.4 was just one-tenth second off the record he set in 1953. George Duganne victory in the 200-yard backstroke gave Florida two individual victories the first night. Luis Child of Florida won the 1500-meter freestyle to add to Florida's total of 52 points the first day of

SIDELINE SLANT Z!

by John K. Ryans

Coach Adolph Rupp's Wildcats should have proven to the last of their scollers Tuesday night that they have all of the qualities necessary for the NUMBER ONE team in the nation. For the first time this season the Cats were behind in the third period, but they came back like champions to beat the fighting LSU five. Next they proved that although they didn't have an exceptionally big man themselves, they still could hold down the big man on the opposing team. Bob Pettit, a smooth performer for the Bengals, was closely guarded by Big Lou Tsiropoulos to the extent that he only hit six field goals in the entire game. His 17 points was far below his 32 point per game average for the year. It also proved to the supporters of LSU that they did not have the top team in the SEC, as they appeared to believe. And finally it proved to the people who said that Kentucky was only beating weak teams, just what the Wildcats can do to a top-flight team. The Bengals were rated eighth in the nation in both the AP and UP polls this week.

In winning their 25th consecutive game of the season the Cats marked up the greatest season in the history of UK. It seems impossible to think that the United Press's Coaches Poll could rank the Cats in second place in the nation, behind an Indiana team that has been beaten three times this season. However, the Associated Press has the Cats firmly entrenched in the top spot.

The action taken by the athletic officials in voting not to play in the NCAA without the "Big Three" was certainly not surprising in view of the existing situation. The three players were forced to sit out last season, because the school was suspended for supposed misconduct in which these players had no part. Now they are penalized again by not being allowed to play in the NCAA, an honor they justly earned by winning the SEC championship.

The NCAA champion this season will hold a hollow title, since only one of the top four teams in the AP poll will participate in the tournament. Besides Kentucky, the top team in the nation, Western and Duquesne will also be absent from the NCAA tourney. They both chose to play in the NIT tourney in Madison Square Garden, rather than accepting an NCAA at-large bid. This leaves only Indiana, who barely managed to win the Big Ten title, as the only representative of the top four teams in the nation. It wouldn't be surprising to see Notre Dame take the crown over the favored Hoosiers.

Frank Ramsey, selected on the Look Magazine All-American first five this week, certainly closed out his UK playing career in style Tuesday night, as he played one of the greatest games of his career. The Blond Bombshell scored almost half of the Wildcat total, as he contributed 30 points for his night's work. Ramsey also played his usual top notch floor game and was at his best when the Tigers began to worry the Cats in the third period. With Cliff Hagan being guarded closely and Big Lou Tsiropoulos concentrating on holding Pettit down, it was up to Ramsey to carry the Cats scoring attack, and he certainly carried out his job to perfection.

Gayle Rose put on an excellent dribbling exhibition, as he controlled the ball late in the fourth period of the LSU game. The Tigers used three men to attempt to steal the ball from him, but were unable to stop him except by fouling. Rose has been famous for his ball-handling ability ever since he was a standout performer at Paris High.

Kentucky's cheering section sounded better at the LSU game than it did at any home game played in the Coliseum this season. The many students and alumni attending the game gave the team the support it needed, when the Tigers pulled into a lead in the third period.

Coach Algie Reece's swimming team should be congratulated for their outstanding showing in the SEC swimming meet last week. Coach Reece said that Paul Bollinger finished so far ahead in setting the SEC record for the 220, that the man who finished second thought that he had won. Finishing third in the SEC meet is definitely an honor for the Catfish. Most of the SEC teams place greater emphasis on swimming than Kentucky, and Coach Reece deserves a great deal of credit for the job he has done.

Coach Blanton Collier announced this week that grid practice will not begin for another two weeks. Coach Collier said that the postponement was due to the regional and state basketball tournaments to be held in Memorial Coliseum the next two weeks. He said that he feared the tournaments might interfere with his practice program. An earlier postponement was made last week due to inclement weather. He said that practice would probably begin on March 23.

Next Wednesday night is the opening date for the state basketball tournament to be held in Memorial Coliseum. This is the annual high school marathon to decide the state basketball champion. The thrilling play of the high school teams always makes for an interesting week of basketball pleasure.

I-M Volleyball Play Continues

By DON HENRY

Four teams emerged undefeated from the regular season play in the I-M volleyball play to lead in their respective divisions.

The DTD, EDT, SAE, and KA each finished with three wins and no losses for top honors, and moved into the single elimination tourney for the campus championship.

The three top teams in each of the four Greek divisions and the top four teams in the independent division began the playoff Wednesday, March 10.

Each of the four undefeated teams drew boxes until the quarterfinals on Thursday. The SAE will meet their opponent, the KS-SN team, the PDT will take on the winner of LXA-PA game, DTD will engage the victor of PKA-Tri, and the KA will play winner of the AGR-SX meet.

The independents will begin with BSU meeting Deacons and the Convicts playing the Civil Engineers on Monday, and the winners meeting on Thursday of this week for the finals in this branch.

The winners from the Greek and independent divisions will play on Tuesday, March 16, at 5:00 p.m. for the Campus Championship.

The final standings in each division were as follows:

Div. I		
EDT	3 won,	0 lost
KS	2 "	1 "
SX	1 "	2 "
PH	0 "	3 "
Div. II		
DTD	3 won,	0 lost
AGR	2 "	1 "
SN	1 "	2 "
PSK	0 "	3 "
Div. III		
SAE	3 won,	0 lost
PKA	2 "	1 "
PKT	1 "	2 "
ATO	0 "	3 "
Div. IV		
KA	3 won,	0 lost
Tri	2 "	1 "
LXA	1 "	2 "
ZBT	0 "	3 "

The four top teams in the independent division were, Civil Engineers with four victories, no losses, BSU with a 3-1 record, the Convicts 2-2, and the Deacons with 1-3 count.

I-M Swimming Meet Deadline Is Today

Kentucky's annual I-M swimming meet will be held on Monday, March 22, and the following week on Monday, March 29.

It was announced by the IM department; this week that this year's meet would include eight events. They are, 50 yd. free style, the 100 yd. breast stroke, 200 yd. free style, 100 yd. back stroke, 100 yd. free style, diving, 150 yd. three-man Medley Relay, and the 200 yd. free style, four man relay.

Each organization will be limited to four entries, each of which may enter only two events, not including diving. All entries must be in by Friday, March 22, 1954.

Each entry must work out at least twice before the meet. Work-out periods have been scheduled for 2:50 p.m. on March 13 and 20, from 4:15-5:15 p.m. on March 10 thru 19, and from 7:00 p.m. to 9:00 p.m. on March 10, 12, 17, and 19.

Swimming Coach Reese has offered his services to any entry who might want assistance in preparing for the meet at these periods.

Alma Magna Mater To Meet Thursday

A spring membership meeting of Alma Magna Mater will be held at 5 p.m. Thursday in Room 128 of the Student Union, Fay Holcomb, secretary of the organization has announced.

Alma Magna Mater is an organization for UK students whose parents or grandparents attended the University. The meeting is for the purpose of gaining new members.

GET THAT BALL!—Members of the Women's Athletic Association practicing for their game with Eastern State College this week are, left to right, Frankie Daults, Carolyn Sue Harris, and Pat McPhail.

Cats Have Top Year

By HANK MAYO

All-American Cliff Hagan set a new S.E.C. scoring record, as the Cats dumped Temple 86-59 for the start of their first undefeated season since 1934-35. With this great burst of power everyone knew the Cats were out to show that this was their year!

The Big Blue took to the road for their next outing as they traveled to Cincinnati to face a strong Xavier five. They were no match for Kentucky and were subdued 81-69. They returned home to meet Wake Forest, one of the powers of the Southern Conference. The Cats were favored, but few expected the one-sided score which they ran up, 101-69.

The game with St. Louis was the big one for the Cats. The Billikens had beaten the Wildcats four times without a loss in previous seasons and they hoped to do it again. The Ruppmen would not be denied however and dropped the Billikens 71-59.

In the Kentucky Invitational, which was played in the Coliseum, the Cats beat Duke 85-69, and went into the finals against LaSalle. Led by All-American Tom Gola they hoped to upset favored Kentucky. The Cats continued their undefeated season, however, as they dropped them, 73-60.

The Minnesota game was the second test for the Big Blue. They had beaten the Cats in their previous meeting and had all the possibilities of doing it again. This was short lived as they fell before the onslaught of the Cats, 73-60.

Cat Fencing Team Records Sixth Win

The University of Kentucky fencing team, coached by Col Richard Rogers, defeated Lincoln Memorial, 21-6, last Saturday, running their season's record to 6-1.

Kentucky won in all three weapons as a record five fencers made clean sweeps in winning three bouts. The sabre and epee scores were both, 8-1; the foil was closer at 5-4. Fencers making clean sweeps Tom Prather and Lee Shime in sabre, Charles Vittore and Joe Clarke in epee, and John Wittenburg in foil. Bob Dodson and Bill Schreiner each won two bouts, while Bill Hartly and John Perrine accounted for the remaining victories.

This was UK's second match with the L.M.U. team and the Wildcats have decisively beaten the newly-formed team in their first year of intercollegiate fencing.

The next match is again a home meet with the University of Indiana, and will be held tomorrow at 2 p.m. in the mechanical room of Memorial Coliseum.

Baseballers Drilling Daily

The advent of warmer weather has given the Kentucky baseball team a chance to loosen up still arms and sharpen dulled batting eyes. With temperatures ranging in the 50's, most of the hopefuls have been working out on Stoll Field on their own hook.

Practice is still on an informal basis since Coach Harry Lancaster has been unavailable because of basketball duties. Lancaster will probably not be with the team until the beginning of next week since he is staying in Nashville to observe the Tennessee State High School Basketball Tournament. Jim Bayless, a Tennessee prep star, has already signed with Kentucky and will play in the tournament.

Good weather is a welcome sight for the UK baseball team, because in the past cold weather has kept practice at a minimum. Other SEC clubs always have an advantage over the Cats since they are blessed with good weather early, especially such teams as Georgia, Georgia Tech, and Florida. By the time Kentucky competes with these schools, they already have three or four games under their belt and a big bulk in practice time.

As a result, the Cats will have about three weeks to get ready for the season opener with Eastern at Richmond on April 5.

One of last year's hurlers, Don House of London, Ky., has had summer baseball plans canceled for about two years. House, who earlier signed with the Cincinnati Reds, has received his draft call and will report in April.

Conley Receives Chemistry Award

A prize for outstanding work in freshman chemistry has been awarded to Harry L. Conley Jr., freshman at the University, the UK Department of Chemistry has announced.

A copy of "Handbook of Chemistry and Physics," which is presented annually by the Chemical Rubber Company of Cleveland to the student making the highest grade in chemistry, was the award.

The Cats traveled to Chicago to meet DePaul for the second time, but were not extended too much as they took the contest 76-61 after a slow start.

Vanderbilt was beaten 100-64 at the final home game and the Cats traveled to Alabama for their final two. Auburn was beaten 109-79 and Alabama was taken 68-43.

In the S.E.C. play-off the Cats beat LSU 63-56.

COLONEL Of The Week

The Sturup Cup proudly presents Norman R. Bogges as Colonel of the Week. Bogges is a senior in the College of Commerce with a 1.6 overall standing.

He is a Cadet Major in the APROTC, president of the Arnold Air Society, a member of Sigma Alpha Epsilon, social fraternity, vice president of the YMCA, a member of the Y cabinet, secretary-treasurer of the Southern Area Student Council for the Y, and a member of Delta Sigma Pi, commerce professional, and Lamp and Cross.

For these outstanding achievements, the Sturup Cup offers Norman any two of its delicious meals free.
